

144 SUPPLY SQUADRON

MISSION

The primary function of the 144th Supply Squadron is to supply all material necessary to establish and maintain our local Air National Guard Base. The squadron is composed of a Command Section which performs the administrative functions of the unit; a Supplies Management Section which is responsible for the maintenance of property accounting records; a Material Facilities Section which is responsible for receiving and shipping of mail and supplies; a Base Equipment Management Office (BEMO) which handles the management of organizational equipment, tools, clothing, personal and survival equipment; and a Base Fuels Section (POL) which is responsible for the maintenance of JP-4 fuel and oil and the refueling of aircraft.¹
