

341st MEDICAL GROUP

MISSION

The medical group works out of a four-building campus, including a spacious 91,000 square-foot main clinic completed in 1990, and offers a wide variety of services which include: family practice, gynecology, mental health, flight and missile medicine, optometry, physical therapy, laboratory, radiology, family advocacy, bioenvironmental engineering, health and wellness, nutritional medicine, pharmacy and public health. Specialty services that are not available within the clinic are provided through the TRICARE contract, a partnership with TriWest Healthcare Alliance, which maintains a comprehensive network of civilian specialty providers in the local area.

In addition to providing peacetime healthcare, the medical group regularly trains to provide rapid, responsive support for contingencies, both natural and man-made. Regular training, periodic readiness exercises and inspections, and as-needed deployments in support of overseas operations ensure that the 341st Medical Group is always able to support the mission.

The 341st Medical Group is responsible for all medical and dental care for nearly 15,000 beneficiaries throughout north-central Montana. The group's mission is to maximize 341st SW personnel health, fitness and readiness through comprehensive managed health care systems emphasizing health promotion and preventive medicine. The units of the 341st Medical Group include the 341st Medical Operations Squadron and the 341st Medical Support Squadron.
