

355th CONTRACTING SQUADRON

MISSION

The 355th Contracting Squadron assures high quality and timely customer support consistent with federal acquisition regulations and public law for optimum mission execution. The squadron directs contracting programs in excess of \$80 million annually for the acquisition and administration of commodities, services and construction requirements in support of the 355th Fighter Wing and 24 tenant units that call D-M "home". The squadron also manages one of the largest Government Purchase Card programs in Air Combat Command valued at over \$35 million.

In addition to taking care of the local mission, the squadron provides contingency contracting services in support of worldwide deployments and emergency operations. Operating in a one-to-one deployment-to-dwell ratio provides many opportunities for contingency contracting officers to support a wide array of operations.
