

# **508<sup>th</sup> MATURE AIRCRAFT AND SIMULATOR SUSTAINMENT GROUP**

## **MISSION**

The 508th Mature Aircraft and Simulator Sustainment Group is responsible for the acquisition of new and improved capabilities as well as sustainment for 36 different aircraft weapon systems. Assigned management responsibility includes acquisition, modification, engineering, technical support, maintenance and repair. The group directs, plans and manages the interface between the directorate and domestic and foreign customers.

Mature aircraft are those systems that are out of production but still active in the Air Force inventory. These aircraft are the A-10, T-37 and T-38. Proven aircraft are those systems that are out of production and not in the active Air Force inventory. They are primarily flown by foreign countries or US agencies. Among proven aircraft are the F-4, F-5, C-47 and others.
