

556th ICBM SYSTEMS SUSTAINMENT GROUP

MISSION

The 556th ICBM Systems Sustainment Group manages the logistics, acquisition, and sustainment of all ICBM flight systems including three solid rocket motor stages, liquid rocket propulsion systems, guidance systems, and reentry systems. We support the Vandenberg AFB Safety and Test Launch Systems for Minuteman (MM) in support of Force Development Evaluations and developmental test launches, associated support equipment and automated test equipment. Our Group also manages four major acquisition programs: Propulsion Replacement Program; Propulsion System Rocket Engine Life Extension Program; Guidance Replacement Program; and Safety Enhanced Reentry Vehicle Program.
