1 November 1976 Wing OV-10A aircraft, 601 CAMS personnel, and a FACP from the 611 TCF deployed to Zaragoza AB, Spain to "kick off" a four month weapons training detachment deployment nicknamed "Creek Tally". This was the first time wing aircraft deployed for this type

training in Spain. Also, the FACP deployed in two C-5A Galaxies rather than the C-130s or C-141s normally used for radar airborne deployments.
