

## 641<sup>st</sup> ELECTRONIC SYSTEMS SQUADRON

### **MISSION**

641 Electronic Systems Squadron mission is to Sustain a software system capable of rapidly and accurately developing USAF, FAA, NATO, and ICAO terminal instrument procedures for any time, place, or mission.

Deployable-Instrument Landing System (D-ILS) will provide a supportable, adaptable, resilient, enduring/persistent precision approach capability that all joint, coalition and civil ILS-equipped aircraft will be able to use worldwide. Will also provide a fixed-based restoral capability (e.g., humanitarian relief efforts or natural disaster).

Joint Precision Approach & Landing System (JPALS) Rapidly deploy adverse weather, adverse terrain, survivable, maintainable, and interoperable precision approach and landing system (on land and at sea) that supports the war fighter when ceiling and visibility are limiting factors
