EMBLEM

The four separate monsters on the logo incorporates the original LRS' (four headed monster) concept, which integrates the Air Force Fuels, Plans, Supply and Transportation specialties into one cohesive squadron. The color scheme of black, yellow, blue, and red together, combines the historical significance of the steel industry in the region and the connection with the City of Pittsburgh. The motto, "Moving the Mission," is a parallel with the definition of Logistics and the use of it to achieve the Air Force mission.
