

984 COMBAT SUSTAINMENT GROUP

MISSION

The 984 Combat Sustainment Group determines requirements, provides item management, production management, engineering and technical management, budget development, and manning support for struts, wheels, brakes and tires.

It also serves as the power system supply chain manager by providing program management support that includes logistics, engineering, equipment management, item management, and production management for GTE and SPS equipment, supporting multiple aircraft, including A-10, B-1, C-5, C-130, C-141, F-15, F-16, KC-135, and start carts.

The group serves as the product group manager supporting power conditioning and continuation interfacing equipment, photonics, photographic, optical, imaging, electro-optical and related technology areas and systems.
