27 SPECIAL OPERATIONS COMMUNICATIONS SQUADRON

MISSION

The 27 Special Operations Communications Squadron provides combat-ready command and control, communications and information services for the 27 Special Operations Wing to support in-garrison and deployable warfighting missions worldwide. Its Airmen operate and maintain fixed and deployable communications and information systems, equipment, personnel and information facilities for the 27 SOW, associate units and the Melrose Air Force Range. 27 SOCS is responsible for the base network and deployment of wing initial communications capability. It furnishes daily services to nearly 5,000 military and civilian personnel.

EMBLEM

2040 Communications Squadron emblem: The United States Air Force colors of blue and gold in the heavens over the globe represent the continuous day and night mission of the unit. The red lightning bolts represent the unit mission: providing many forms of communications support to the host wing. The red Zia sun symbol of the ancient Pueblo Indians signifies the New Mexico location of Cannon AFB, home of the squadron. The white lines of latitude and longitude on the globe represent the proper orientation and positive control provided to the host wing's aircraft and aircrews by the squadron's navigational aids and air traffic control functions. The golden stars in the heavens, separated by blank portions of the blue night sky, indicate the numerical designation of the organization. The green globe represents life, freedom, and the American way of life, all of which this unit is pledged to defend. It also represents a vision of the future and the strong desire of the people in this unit to move forward and lead the way into that future.

27 Communications Squadron emblem: Azure, a vol Argent surmounted by a mullet or, in chief two lightning bolts enarched to sinister pilewise Gules; all within a diminished bordure Sable. Attached above the disc a White scroll edged with a narrow Black border and inscribed "27 COMMUNICATIONS SQUADRON" in Black letters. Attached below the disc a White scroll edged with a narrow Black border and inscribed "COMMUNICATORS OF CHOICE" in Black letters. **SIGNIFICANCE:** Blue and yellow are the Air Force colors. Blue alludes to the sky, the primary theater of Air Force operations. Yellow refers to the sun and the excellence required of Air Force personnel. The star represents the squadron's various communications missions. The lightning bolts reflect the speed of response and expertise of the unit when called to complete its assigned duties. The wings symbolize the unit's ability to perform its expeditionary communications missions anywhere and at any time.

Approved on 21 Jan 1999; latest rendering, 9 Oct 2018.
