## **Decorations**

Air Force Outstanding Unit Award, 1 Jun 1962-31 May 1964

## **EMBLEM**

On an Air Force blue disc edged white within a wide black border edged white, two silver gray rays throughout issuing from dexter base and sinister base respectively, and converging to dexter chief surmounted by an Air Force golden yellow lightning bolt fesswise issuing from the outer-perimeter of the border in sinister; over all between the two rays a missile in upward bendwise flight emitting exhaust to outer perimeter of the border in base, all white. The emblem is symbolic of the squadron and its mission, and signifies power to preserve the peace. Against a backdrop of deep blue to indicate the sky which is guarded by the organization, two gray streaks indicating twilight which divides the daylight and the darkness, and a lightning bolt representing the power of the weapon are surmounted by a missile streaking across the emblem to represent this unit's primary purpose. The white color symbolizes the purity of peace. The emblem bears the Air Force colors, ultramarine blue and golden yellow. (Approved, 23 Apr 1963)

## **OPERATIONS**

Ground elements departed from Fort Monroe, VA, on 27 October 1940 on an army transport and arrived 2 November 1940 at San Juan, PR. Aircraft and crews departed Langley Field on 1 November 1940 for Borinquen Field, PR, and arrived several days later. Transferred on 11 November 1941 to Coolidge Field, Antigua.

After 7 Dec 1941, flew anti-submarine patrols from Caribbean bases to protect convoys carrying bauxite and other South American commodities to Trinidad for transshipment to the United States. On 18 Mar 1943, Major Edwin H. Hawes, the Squadron Commander, negotiated U.S. role in coup that overthrew the pro-German administration of French Guiana. As a result of this coup, allied aircraft obtained immediate use of airbases located in that territory.

From 1960 to 1962 trained personnel and prepared for operations associated with the Bomarc B unmanned interceptor missiles. Attained operational readiness on 10 Feb 1962, six months after receiving first missiles. Maintained capability to intercept and destroy hostile aircraft until manned bomber threat to the United States and Canada became negligible. Inactivated on 31 Dec 1969.
