OPERATIONS

The Air Training Command complex at Tyndall during this period of time was one of the largest USAF facilities, with the 3625th CCTW being one of the largest Wings. The Wing itself was broken down into segments which included the 3625th Training Group (Interceptor, Air Crew), with this Group further broken down into squadrons devoted to the specific training of F-86D pilots, F-94 and F-89 pilots, and Radar Observers, ROs. Additional assigned squadrons conducted the training of Ground Control Intercept officers and enlisted men.
