NICKNAME

OPERATIONS

3904 MES SAC based at Offutt AFB Nebraska established twenty five Management Engineering Team MET Detachments on MAJCOM bases around the US each with one or two Management Engineering Officers MEO and up to eight Management Engineering Technician MET supported by a number of civilian staff to carry out required studies and recommendations.

The Squadron was inactivated in 1992 when the Air Force Manpower Engineering Agency took over the field management engineering teams that had been assigned to USAFs Major Commands and reorganized them on a functional basis before replacing the teams with numbered squadrons and flights in 2004.
