Armed Forces Expeditionary Streamers

Decorations

EMBLEM

59th Strategic Reconnaissance Squadron Very Long Range Weather insignia depicts the turbulent conditions encountered by the squadron in fulfilling its mission of providing weather data. (Approved, 14 Feb 1947)

59th Reconnaissance Squadron (Very Long Range) Weather: A high priority of this unit is reconnaissance of Atlantic hurricanes. Because of wide public interest in hurricane activities and as a result of extensive coverage by various news media, this organization has become well known to the general public and all government agencies as the "Hurricane Hunters." The emblem is in the form of the symbol used by meteorologists. The words "Hurricane Hunters" serve to identify the unit and its aircraft. The flags in the center of the emblem signify a hurricane warning. (Approved, 7 Mar 1956)

59th Weather Reconnaissance Squadron emblem: the balloons represent the dual collection mission of the squadron. The shaft of lightning is symbolic of the interest of Air Weather Service in all levels of the atmosphere. The blue sky with white clouds alludes to the level of ordinary weather. (Approved, 9 Jan 1964)

MOTTO

PRO BONO PUBLICO--For The Good Of The Public

NICKNAME

OPERATIONS

In December 1946 the 59th Reconnaissance Squadron, VLR, Weather moved from Castle Field, California to Fairfield-Suisun Field, California. The squadron flew missions between California and Alaska. The first Ptarmigan mission was flown by this squadron on 7 March 1947.

The 59th Squadron moved to Ladd Field, Alaska in May 1947, completing the movement about 1 June 1947. The squadron headquarters was established at Ladd Field, a detachment was located at Elmendorf Field, Alaska, and B Flight remained at Fairfield-Suisun AAB, California.

4 February 1959, WB-50D, 49-0343, weather reconnaissance aircraft, assigned to 59th Weather Reconnaissance Squadron at Kindley AFB Bermuda was lost on weather track over Atlantic with 12 killed. Crash was observed by a Japanese freighter about 2 hours after takeoff.
