### **Campaign Streamers**

### **Armed Forces Expeditionary Streamers**

### **Decorations**

## **EMBLEM**

## **MOTTO**

## **OPERATIONS**

Seeing the men of the Flight Line Maintenance Squadron out on the flight line in fine weather, may cause some envy among those who have to work inside. Fresh air in Bavaria can, be a little too fresh at times. Working outside in temperatures below zero is for rugged types only, in this respect the Flight Line Maintenance Squadron is well supplied.

Nowhere is there better teamwork and esprit de corps than among the crews that service the aircraft. This is probably due to the knowledge that they are supporting some of the finest pilots in the best aircraft in the world.

The mutual admiration with which the pilots and maintenance men regard each other can be seen by anyone who spend their time on the flight line. The lives of the pilots depend on the skill and the conscientious way in which the Flight Line men perform their duties.
