

94 INTELLIGENCE SQUADRON

MISSION

The 94 Intelligence Squadron operates the Consolidated Remote Operations Facility Airborne and provides trained personnel for worldwide contingency operations. Processes time-critical combat information for battle managers, unified commanders and National Command Authorities. Provides direct information warfare support to operationally tasked U.S. aircraft and forward-deployed combat forces.

MOTTO

OPERATIONS

The 6994th Electronic Security Squadron is ESC's only airborne squadron located on an Army post, Fort George G. Meade, Md., but that's not the only unique thing about it.

The squadron is also the first active-duty Air Force unit to combine active duty, Air Force Reserve and Air National Guard people in a single mission.

The 6994th flies with various active and National Guard C-130 equipped units. Its mission is to provide support to Air Force component commanders.

The unit is prepared to deploy anywhere in support of U.S. contingency planning. It also participates in numerous joint and combined exercises both in the United States and overseas and is expected to play a key role in the Air Force's rapid deployment capabilities.
