Approved, 9 Feb 2005

MOTTO

OPERATIONS

The mission of the USAF Advanced Maintenance and Munitions Officers School is to expand combat capability by developing graduate-level expertise in aircraft and munitions maintenance using the USAF Agile Combat Support master process construct. The school's teaching focus includes all logistics aspects of mobilization, deployment, beddown, sustainment, combat employment, redeployment, reconstitution, and command and control aspects to provide the most capable combat support to an air campaign. Graduates are qualified in all aspects of effects- based logistics through five phases: Readyng the Force, Preparing the Battlespace, Positioning the Force, Employing and Sustaining the Force, and Recovering the Force. The Advanced Maintenance Superintendent Course produces a core of highly skilled maintenance personnel knowledgeable in all aspects of mission generation principles to include sortie generation, fleet health and readiness, flying hour program management, munitions operations, combat munitions production, and command and control.
